TOP LOADING SCALES

Models CBC 3, 6, 15, 30, 45 Kg

The CBCa series of counting scales offer all of the features called for in industrial warehousing and production applications - ease of use, simple robust construction for factory floor durability, genuine portability, and just the right levels of counting performance.

Displayed resolution is up to 1:30,000 and the internal counting resolution 1:400,000.

With a powerful rechargeable battery and automatic charging when operating the scales from the AC mains supply these units can be used anywhere - on or off site - at any time.

CBC 35 Scale

Operation is easy: Either place a known quantity on the scale or enter a known unit weight. The scale will automatically display the total count of all parts on the pan as well as calculate and display the unit weight of the part. The sample quantity is freely selectable and because the bigger the sample the better the result, the software in the machine automatically updates and enhances its average piece weight data as components are loaded onto the pan during counting.

Clear, well spaced keys ensure accurate data entry and three separate LCD displays clearly show the total weight, the unit weight and the quantity.

The memory accumulation feature keeps a running tally of each individual count - invaluable in batch counting operations or when accumulation counting large quantities of the same part.

The display will show the total on the scales, the overall total and the number of batches counted. For goods inward checkweighing or for batching a simple key-press will programme the scales with any predetermined quantity. A buzzer sounds when the quantity is reached or exceeded.

	Capacity	Readability	Platform size
CBC 6a	6lb / 3000g	0.0002lb / 0.1g	275 × 225mm / 10.8 × 8.9"
CBC 12a	12lb / 6000g	0.0005lb / 0.2g	275 × 225mm / 10.8 × 8.9"
CBC 35a	35lb / 15kg	0.001lb / 0.5g	275 × 225mm / 10.8 × 8.9"
CBC 65a	65lb / 30kg	0.002lb / 1g	275 × 225mm / 10.8 × 8.9"
CBC 100a	100lb / 45kg	0.005lb / 2g	275 × 225mm / 10.8 × 8.9"
