SEPOR MINI-JAW CRUSHER

Portable, Lab Size - Fits On Countertop
Easy To Clean

Has Ceramic, Tungsten Carbide or Steel Grinding Components

- ◆ The SEPOR mini-jaw crusher is available with a variety of wear surfaces: hardened steel alloy plates for users not concerned with metallic contamination and 85% Alumina for those who are.
- ◆ A tungsten carbide model is also available. The tungsten carbide contains 6% cobalt as a binder.
- ◆ All jaw plates are interchangeable.
- ◆ The feed opening is 2" x 2" with a maximum feed of 1" material. About 1/4 lb. per minute can be crushed to 1/8" depending on the nature of the feed material. The size of the crushed product is adjustable to compensate for plate wear or for desired fineness. The jaw opening range is from 1/4" to 1/16". However, the finer the crushed product, the lower the throughput.
- ◆ A stainless steel tray provides greater convenience in sample handling. If cross- sample contamination is of paramount importance, each sample may be caught on separate trays.

FEATURES

Motor: 1/4Hp 110/60Hz or 220/50Hz

Bearings: Heavy-duty needle bearings,sealed

Eccentric shaft: Case hardened alloy steel

Frame: Heavy welded steel frame provides rigid support necessary for crushing a wide variety of materials and for excellent wear characteristics.

Shipping weight: 50 lbs.

CATALOG NUMBER	DESCRIPTION
010A-021	Mini-Jaw Crusher, With Steel Jaw, Cheek Plates
010A-011	Mini-Jaw Crusher, With Ceramic Jaw, Cheek Plates
010A-012	Mini-Jaw Crusher, With Tungsten Carbide Jaw, Cheek Plates
010A-022	Complete Set of Steel Jaw & Cheek Plates
010A-023	Complete Set of Ceramic Jaw & Cheek Plates
010A-024	Complete Set of Tungsten Carbide Jaw & Cheek Plates
110 V/1 Ph/60 Hz Standard, 220 V/1 Ph/50 Hz Available Steel, Ceramic and Tungsten Carbide Jaw Plates Are Interchangeable On All Mini-Jaw Crushers Manufactured After 1993.
